Dear Friends:

In appreciation of your past business, and with sincere hopes that we may again serve you with some of the "**Finest Bulbs of the Finest Varieties**" we send you this descriptive list of varieties we feel are outstanding in the Glad world today.

You will note that we have added a considerable number of new varieties this year. These we have, after growing for the past few years, decided were worthy additions and are sure that they will please you.

To new customers we wish to state that we will try to please you to the best of our ability with some very fine bulbs, of some of the finest varieties. We cannot grow all of the varieties coming on the market, but we do try most of them in our test garden, and pick the best to catalog for your gardens.

Our blooms this year were as fine as we have ever had, and growing in the field we had many, many spikes of Grand Champion caliber. We had the good fortune of having a spike of **White Gold** named Grand Champion at the S. E. M. G. S. show, and won our share of Blues and Special Awards at the shows we attended. We do not grow our glads under special culture for shows, cutting those we win with right in our commercial plantings. Thus those varieties that can win, we know are good performers.

Elizabeth Maier which we introduced for Mr. Maier in 1944 has again won many awards this year. At this writing we know that it won 1st Three spike and 1st Recent Introduction at New York City Show, 1st at Connecticut, 1st and Section Champ at Indiana, also 1st single spike at Elmira, and 1st Recent Int. at Triple City Show. Not bad with limited distribution. Don't forget **Lord Athlone**, **Veronica Pfeiffer**, **Wolverine State**, and **Birmingham Beauty** all have been winners and will win for you too. **Madeleine Brown** has brought in many fine reports, and if you want a real commercial don't miss this one. **Silver Wings**, **Leading Lady**, **Burma**, **Spitfire**, **Big Top**, **Corona**, **Glamis**, **Titan**, and **White Gold** were a few of the most outstanding new ones winning major awards.

Order your bulbs early and avoid disappointment.

Thank you,

G. V. SNYDER.

1946 Introductions

Blue Lagoon

(Milford X Maid of Orleans) (75 Days) Medium depth of blue, almost self, shades lighter in upper throat and slightly deeper on lower throat petal. Tall, straight grower 60 inches high, 4½ to 5 inch wide open blooms of excellent texture, with 6 to 8 well placed blooms open on a 24 inch to 27 inch flower head. Excellent propagation and germination.

The only fault that this variety has, if it can be called that, is that under very wet conditions it has a tendency to grow very tall and to stretch its flower head, with the blooms spaced decoratively and too far apart. It is a wonderful grower under the driest conditions. Bulbs are exceedingly healthy. It has never thrown a crooked spike, and can be cut almost 100%. We believe this variety a definite advance in the blue class. Should be an easy winner for show and fine commercial.

Large \$8.00 ea. Medium \$6.00 ea. Small \$4.00 ea.

With purchase of bulb you may purchase up to 10 bulblets.

Priced \$1.00 ea. — 10 for \$8.00

Awards 1945 — 1st Seedling Class, Ohio State Show.

1st Seedling Class, Michigan State Show.

From Andy Maier

"The Detroit News"

(80-85 Days) Light lavender rose, overlaid with rose purple stripes radiating from a small throat blotch of same color.

This different glad has great commercial possibilities. Leading Detroit florists have been buying all Mr. Maier could supply.

American Home Achievement Award 1945

Large \$3.00 Medium \$2.50 Small \$2.00 Blts. 25c ea. 10 for \$2.00

From Mr. Beaton

Royal Windsor

(80 to 85 Days) A very bright, formal type Spectrum Red (Fischer R4). 5¼" bloom, 20 buds, with 8-10 open on a 54" plant. Florets are firmly attached, fluted and lightly waved. Excellent texture, perfect placement and sturdy stems. No crooked, kinked or bowed stems or clubby heads. Opens perfectly when cut in bud. Bulblet production and germination excellent.

Award of Merit and Seedling Champion (scoring 88) at the Detroit, Mich., Show, 1943. Only time shown in competition.

Large \$5.00 ea. (6-\$25.00), Med. \$4.00 ea. (6-\$20.00), Small \$3.00 ea. (6-\$15.00)

# Ramblings....

Remember when buying bulbs that price is not a major factor. The actual saving of a few cents on bulbs may cost you many times that much. Our bulbs are given the latest up-to-date treatment for all diseases and insects and are carefully inspected by hand to insure you a bulb that will grow and give real satisfaction. Bargain Basement bulbs are just that, and in the long run cost far more than those grown under careful supervision.

This year I am introducing the first of many seedlings that I have been growing over a number of years. Having set out with the idea of improving the blues, yellows, and lavenders, I have a number of seedlings in these classes that will, when introduced, be a distinct advancement. If you are looking for a good commercial variety do not overlook **Wolverine State**. This Glad which we introduced for Mr. Maier in 1944 has received much acclaim from the commercial growers who have tried it. It will open from bud, and if grown to bloom late in fall is not affected by frost and cold as are most varieties. It is a wonderful propagator, opening a lot of blooms on nice strong straight spikes.

Mr. Maier, myself and our wives visited the Ohio State Show at Cleveland this year and certainly enjoyed a very fine show. The blooms were excellent as was the staging and we met many of the leading growers from out state. Our own Southeastern Michigan show had the finest blooms this year we have ever seen, plus the most entries in all classes we have ever had. The Michigan State Regional Seedling and New Introduction Shows (3 shows being held this year), were filled with very fine seedlings and new introductions, many of which will probably be heard from in the near future. Four of my seedlings received Awards of Merit this year, which made me very proud, considering the large number of seedlings shown, and the few awards given.

Your variety Madeleine Brown is the best that you sent. It sure does resemble Picardy. The throat just a shade deeper and each one a perfect bloom, all tall, no dwarf ones like in Picardy. It sure ought to go places, and I do prefer it way over Picardy.

Dirk Kroom, Woodland, Wash.

Legion Trial Gardens  
Mr. E. A. Lins reports:

Madeleine Brown was planted in same field this year (1942) as Picardy. I could not cut any Picardy, they were very poor, but Madeleine Brown were all tall and straight and heat did not seem to affect them. It has always done fine here.

You will grow it eventually . . . .  
. . . WHY NOT NOW?
